

IN - 1/4" instrument input

OUT - 1/4" output

SEND 1 - connect this via 1/4" cable to the input of an effects pedal or loop.

RETURN 1 - Connect this via 1/4" cable to the output of an effects pedal or loop.

SEND VOL. - determines the volume of your dry signal pushed into the SENDs.

SEND 2 - Connect this via 1/4" cable to the input of an effects pedal or loop

RETURN 2 - connect this via 1/4" cable to the output of an effects pedal or loop.

THE SWITCH - makes it engage the effects loops!

DC Jack - 9 volt center negative power (industry standard)

Dimensions : 4.39" x 2.36" x 1.03"

Power Draw : 7mA

You can use the Paraloop to route audio in many ways, another great trick is to connect a SEND jack to the input on an auxiliary amplifier. Switch on an extra amp! WOW!
